Certificate of Release

This certificate is an acknowledgement that 1KEY Business Intelligence tool, developed by MAIA Intelligence has been rigorously tested by Quexst and 1KEY 2.0.1 is ready to release. Our certificate is valid for 1KEY 2.0.1 Version. The testing was done with the following methodology (Ref Annexure 1) –

√ Unit & GUI Testing
   We have used a unit level test checklist. While the testing was primarily carried out by development team, Quexst has verified the same during functional testing.

√ Functional Testing:
   Carried out at integration level; we have validated the functionality of each module and their integration against expected results, progressing to system testing.

√ Database Testing:
   We have tested and verified the database design.

√ Compatibility Testing:
   We tested the product to ensure that it runs reliably on the specified list of operating systems and backends.

√ Performance, Load and Stress testing:
   We tested the product by subjecting subjected the product to varying loads, in terms of users and data, to demonstrate that the application meets the specified criteria

√ Installation Testing:
   We tested installation to ensure that the user can install the software by following the installation manual.

√ Single Server User License Application Testing:
   We have tested and confirmed that the 'Single User' application is restricted for single user on single server.

Quexst Solution Pvt. Ltd. has made an effort to improve the validity of software by subjecting the application to the above tests and has provided accurate, consistent and unbiased testing reports (Ref Annexure 2)

Date: Oct 9th 2006
