QUEXST
SOLUTIONS
Quality Excellence Strategy

We are pleased to state that the product "1KEY" from MAIA-Intelligence has worked satisfactorily on a number of platforms.

Our experienced team has tested 1KEY 2.0.1 product thoroughly at all levels. We have verified it against the product's defined requirements.

The product was tested with a database size up to 70 GB with 1000+ users connecting to the application using variety of ways.

1KEY can be used on Windows Operating Systems, including XP Family, 2000 server and 2003 server.

Our testing included the database like DB2, Oracle 8i/9i, SQL Server 2000, MS Access 2000/2003, Visual FoxPro 8.0 /9.0.

We found it to be a useful Business Intelligence reporting tool and can surely help its users to generate reports from different functional systems enterprise wide.

We are sure that all its users will be benefited from 1KEY Business Intelligence!
