

## Âmørphøųś Wîțh Pıxîê Đũst

*Amorphous With Pixie Dust* is a free text editor that allows you to mix characters and accents in creative and interesting ways. Project a whimsical image on the web by decorating the text for your blogs, e-mails, and instant messages.

### Example Screenshot

### Instructions

1. Type something in the first text box.
2. Select the effects you want to mix.
3. Click the *Apply Effects* button one or more times to see different results.
4. When you like what you see, click the *Copy to Clipboard* button.
5. Paste the text into your blog, e-mail, or instant message by pressing Ctrl-V or right-clicking.

### Special Note

Rotate-13 (a.k.a. ROT-13) is a simple cipher that “rotates” the letters in the alphabet 13 places (‘A’ becomes ‘N’ and ‘N’ becomes ‘A’). The word “SECRET” becomes “FRPERG” when you apply the cipher, and “FRPERG” becomes “SECRET” when you apply the cipher again. Although this is not strong encryption, it allows you to post things, such as comments about a movie, without spoiling the movie for those who haven’t seen it. It can also be fun to create encoded messages (just keep in mind that anyone with this program can decode it).

## Hardware & Software Requirements

Runs on any machine with Windows Vista, Windows 7, or Windows 8.

## Installing Software

Click on the “setup.exe” file and follow the prompts.
