Troi ClipSave Plug-in™ 1.1

Thank you for your interest in the **Troi ClipSave Plug-in**. This plug-in can save and restore the clipboard. Ideal for developers using the clipboards in their scripts.

This cross-platform plug-in is compatible with Filemaker Pro 4, 5 and 5.5 and enhances their functionality.

INSTALLATION INSTRUCTIONS

INSTALLING A (TROI) PLUG-IN FOR THE FIRST TIME.

-**For Macintosh**: put the file "Troi ClipSave Plug-in" from the folder "MacOS Plug-in" into the "FileMaker Extensions" folder in the FileMaker Pro folder. If you have installed previous versions of this plug-in, you must remove them.

-**For Windows**: put the file "clipsave.fmx" from the directory "Windows Plug-in" into the "SYSTEM" subdirectory in the FileMaker Pro directory. If you have installed previous versions of this plug-in, you must remove them.

You may want to install other plug-ins before proceeding. Then (re)start FileMaker Pro. The Troi ClipSave Plug-in will display a dialog box, indicating that it is loading and showing the registration status. You can now open the file "All ClipSave Examples.fp5" to see how to use the plug-in's functions.

_____

How to contact us
Here at Troi Automatisering we feel so strongly about our software that we offer a 30 day money back guarantee on all our products. If want more information about the products we recommend that you visit our Web site.

If you would like information about our other products, just ask us. For the quickest way to learn more about Troi's products, visit our web site listed below.

You can visit the Troi web site at: <http://www.troi.com/> for additional information.
Internet eMail:info@troi.com

Troi may also be reached by postal mail:

Troi Automatisering
Vuurlaan 18
2408 NB Alphen a/d Rijn
The Netherlands

Tel: +31-172-426606
Fax: +31-172-470539

Where can I get answers to questions and more information?
- Frequently asked questions: Please check our support site to see if this can answer your question:
<http://www.troi.com/support/>

- Try our software: All our software is try-before-you-buy and there are examples added, so please download the software and see if this solves your needs. The latest versions of our software are available for downloading at our web site:
<http://www.troi.com/software/>.

- Developer information: If you want information on our developer licenses look here:
<http://www.troi.com/devlicense.html>

More information
We try to put as much infomation on our web site: <http://www.troi.com/> So this is the place to start for more information.

System requirements Mac
Hardware: Power Macintosh Computer or later
Software: Mac OS version 9.0.4 through Mac OS 9.2 or Mac OS X 10.1 or higher.

System requirements Windows
Hardware: Intel-compatible computer 486/33 or later
*32MB of RAM required
Software Requirements: Windows 95, Windows 98, Windows Me, Windows NT 4.0 (Service Pack 3), Windows 2000 or Windows XP

FileMaker requirements
FileMaker Pro 5 or higher or FileMaker Developer 5 or higher.

NOTE: This plug-in should also run without problems on any machine that is able to run FileMaker Pro 4.0, FileMaker Pro 4.1 and runtimes from FileMaker Developer Edition 4.0 as well as on Mac 68k machines, and machines running Mac OS 8.X and Mac OS 10.0.X. However, we have not tested this, and we don't provide support for this.

_____

Troi ClipSave Plug-in is a commerial product
You can try-before-you-buy. This means that you are free and invited to test the plug-in 30 days before you pay. You may also make copies of the original and complete package (including this Read Me file) and distribute it to customers, friends etc. However, you may not distribute a modified or licensed version.

Use Troi ClipSave Plug-in at your own risk:
Although Troi ClipSave Plug-in was tested carefully, we can not be responsible for any damages resulting from using this software. Also please try it out on a test database. Your system may be using an extension (unknown to us) that interferes with the proper functioning of Troi ClipSave Plug-in.
We like to hear feedback on the benefits and shortcomings of the plug-in. Please include the platform and operating system in your suggestions and comments.

What are the costs?
Troi ClipSave plug-in has the following pricing:

New licenses
```
1 or more single user licenses (per user):        $  10
Cross platform Multi user license:                $  50
Cross platform Developer distribution license:    $  90
```

A Cross platform Multi user license covers all locations for your organization. One big advantage of this License is that you do not need to keep track of how many people at your site are using the software. The `Cross platform` developer license is intended for Solution developers that want to include the plug-in in their database solutions. See the "For Solution developers" folder for more information.

`Upgrades from previous versions`
If you bought a license for version 1.0 the upgrade is free and the registration you have should work with this version too.

All Troi Plug-ins are available for Macintosh and Windows. When ordering please indicate for which platform you are ordering.

How to pay?
Paying for a license is easy. We have several ways to pay. More information on this can be found on the order page on our web site: <**http://www.troi.com/software/order.html**>. You can pay online via credit card or via Kagi, who also accept checks and cash monies.

Protection and Unlocking the plug-in
Troi ClipSave Plug-in has a protection scheme. After you pay Troi Automatisering will tell you how to indicate to Troi ClipSave Plug-in that you have paid the license fee.

If you do not have an e-mail address, please enter your complete postal address and remember, we do not know what country you live in so please enter that into the postal address also.

After you've supplied the payment data the following is changed:
- the 'unregistered' warning is replaced by your name.
- the startup delay (which is longer after 30 days of use) and the OK button will be removed.

_____

Bug reports and Wish list
If you find a bug, please report this by e-mail: info@troi.com. If you have any comments or other functions that you think need to be added, please notify us! We have a lot of ideas for this plug-in, so be sure to check our web site for new plug-ins and improved versions.

And please pay for software you keep using, so that the wish list gets reality.

Versions
1.1(25-June-2001)
- Tested with FileMaker 5.5 and ported to Mac OS X. The Mac version of the plug-in is now a so called 'Super Fat' plug-in that will run on Mac OS 8, 9 and Mac OS X.

- Improved Version function. It now also can show the Flash Dialog and return a version buildnumber.

1.0 (24-06-99)
- Final release

1.0.1b1 (06-05-99)
- First Beta release

Thanks for supporting our software,
Peter Baanen
